PROFESSIONAL SUMMARY

Creative, efficient video editor with 3+ year of experience. Eager to apply an aptitude for short/long form editing, sound editing, color correction and motion graphics to perfect the client's vision. Over the last 3 years I've used the Adobe Creative Suite to edit over 200 high end videos for LinkedIn Learning, various large podcasts, and other small businesses. Recently I created a subtitling system using After Effects which has saved over 5hr every week for creating social media content for podcast clients.

WORK HISTORY

TGC Worldwide – *Freelance Video Editor*

Remote • 12/2020 - Current

- Performed post-production work, including assembling raw material, editing sound and video, color correcting and adding motion graphics and providing the final product for podcasts and short form social media content.
- Extract and edit ~60 second clips from full length podcast episodes, including adding subtitles and motion graphics and optimizing the layout for various social media platforms.
- Edit full length podcast episodes (zoom or in-person) with multiple camera angles, motion graphics and titles.
- Organize and upload final exports and deliverable media to content management systems.
